Real Estate Agent Expectations

✓ NACA’s policy for real estate agents is that all agents provide quality customer service and Members must be satisfied with their agents’ performance.

✓ If an Exclusive Buyer’s Agent Agreement is signed by a Member it should include verbiage allowing them to terminate the agreement, at any time, if they are not satisfied with their agent.

✓ If repairs are required, the R.E. Agent helps determine whether and how the seller can assist most effectively by making repairs before the loan closes.

✓ If seller is unwilling or unable to make the repairs, the R.E. Agent must make every effort to obtain seller concessions including a reduced sales price, obtain seller funds to complete the repairs after closing and/or buy-down the interest rate. If needed, the cost of repairs can be included in the Member’s mortgage to be completed after closing.

✓ The R.E. Agent can advise the Member on the amount to offer and can assist in negotiating the terms, but the Member must decide if the house is right for them at the price that is being recommended.
Property Qualification

Property Qualification Letter

Prior to signing a Purchase & Sale Contract you must immediately contact the Mortgage Consultant to obtain a Property Qualification Letter confirming that the Member is NACA qualified for the Property. The amount the Member qualifies for may have changed due to changes in the interest rate or their finances.

To obtain the Property Qualification letter (Broker letter) provide the following:

- ✔ A copy of the MLS (which confirms the listing price)
- ✔ Property Tax Information
- ✔ Property Specific Qualification Form

HAND – Repairs & Renovations

Property Condition: The HOME AND NEIGHBORHOOD DEVELOPMENT (HAND) team works with Members to ensure a home meets condition standards regarding code, safety, health, structure & systems issues. Repairs will be required if conditions exist affecting livability or affordability. Members may also add improvements for “Wish List” renovations as part of their NACA transaction. Mortgage cannot exceed 110% of the appraised value.

Inspections: A property inspection is required, with Member in attendance. Must be done by pre-approved property inspector who will upload report into Member’s file. A Wood Destroying Organism report is also required and can be faxed to the file for HAND to review.

Before
NACA Repair List: HAND will review both property inspection & WDO reports to determine if repairs are required. A repair list is emailed to Member & R.E. Agent to review for final negotiations with the seller. A HAND Coordinator is assigned as the point of contact until the loan is closed or the rehab project is complete.

Seller Repairs: A seller can have repairs done by professional trades as required. Reinspection is required with proof of invoices faxed to HAND, prior to close approval.

Member Rehab: A Member can include the cost of repairs/rehab from the seller, from the Member, by pre-approved grant or financed in the mortgage. Funds are escrowed at closing. Rehab approval requires bids, evaluations and/or work write for the Member, HAND and lender to approve a final rehab budget for work to take place after closing.
