NACA

NACA is the country's largest HUD approved non-profit homeownership, housing counseling, and advocacy organization with more than three million Members and 47 offices nationwide. NACA has established a proven track record over three decades, not only earning respect for its operations but also becoming feared by predatory lenders. NACA's reputation is built on being the most effective organization in the country at providing affordable homeownership. NACA has been on the forefront of fighting against abusive and discriminatory lending practices over the past thirty years. NACA is aggressively hiring hardworking, relentless, and dedicated individuals who are willing and eager to fight for economic justice and racial equality. NACA provides unprecedented opportunities for its staff to do well financially by doing good.

Founded in 1988, NACA has won campaigns against some of the country's most powerful companies and individuals engaged in predatory and discriminatory lending. NACA's success is a result of its relentless confrontational advocacy as well as state of the art systems and operations. NACA's purchase program provides comprehensive counseling as the largest HUD approved housing counseling agency (through its Neighborhood Stabilization Corporation subsidiary) with access to NACA's Best in America mortgage, requiring no downpayment, no closing costs, no mortgage insurance, no need for perfect credit, and always at a below-market, fixed interest rate. NACA has more than \$20 billion in mortgage commitments from Bank of America and other major lenders to fund this extraordinary mortgage. NACA is also the most effective organization in providing affordable solutions to homeowners with an unaffordable mortgage and has done so for more than 500,000 at-risk homeowners nationwide through its HomeSave program.

Built on this unprecedented track record of success, NACA is rapidly expanding across the country and is hiring hardworking, dedicated, exceptional new employees. NACA continues its aggressive advocacy in fighting for economic justice for low to moderate income and people of color. NACA continues to fight for economic justice by addressing the racial wealth disparity gap and other issues. Employees at NACA have a tremendous impact on the Members and communities they serve. Advocacy in Support of NACA's Mission:

Employment with NACA requires ongoing participation in NACA's advocacy, outreach, community organizing, and other activities as determined by NACA. NACA Counselors must

support and actively promote NACA's tactics and mission of fighting for economic justice including participation in NACA's aggressive advocacy campaigns and other activities. This is also important in expanding NACA's Best in America Mortgage, homeownership, and other programs. While these activities are crucial for NACA's continued success, they may reduce the available time for NACA Counselor's to work with their Members and impact their Performance Pay compensation in the short term. These activities contribute to long term production as they contribute towards awareness in the community of NACA's product and services.
